

# activities

- Brainstorming and Discussion meetings
- Data gathering and analysis
- Seminars
- Training/workshops
- Summer/Winter schools
- Conferences/Symposium
- Scientific missions

designed by IACES LC Thessaloniki

## Climatic Resilience Initiative for Pavement Infrastructure

Time to unite and tackle climate change impacts

This platform will only be successful with the participation of many experts! Therefore, you are mostly welcome to join a specific Work Group and/or activities.

Together we will build a strong consortium to collaborate toward a sustainable pavement network.

For more info and subscription please contact coordinators: Prof. Wim Van den bergh or Dr. Seyed Reza Omranian & Dr. Katarzyna Konieczna using the emails provided below:

**SeyedReza.Omranian@uantwerpen.be**  
**Katarzyna.Konieczna@pw.edu.pl**

# technology goals

- Designing and constructing resilient pavement
- 

- Detecting flaws, limitations, dubiousness, and application feasibility
- 

- Developing protocols and guidelines

# group of experts

WG\_01

**Climate factors, pavement resilience, and risk assessment**

**Materials**

WG\_02

WG\_03

**Pavement**

**Pavement health monitoring and resilient index**

WG\_04

WG\_05

**Sustainability Assessment**

**Communication and dissemination**

WG\_06

# community goals

- Establishing Resilience Pavement Association for early career researchers
- 

- Developing networks and creating opportunities for future collaborations

**Climatic Resilience Initiative for Pavement Infrastructure**
